Education

Shibaura Institute of Technology

April 2021 -

MS in Electrical Engineering and Computer Science (Sasano Lab).

Shibaura Institute of Technology

April 2017 - March 2021

BS in Computer Science and Engineering (Sasano Lab). Major GPA: 3.99/4.0.

Teaching Course (Mathematics / Information Technology / Industry).

Experiences

Merpay Inc. (Go / Terraform-Plugin / GitHub Actions / GCP)

October 2021 - December 2021

- Engaged the automation to issue accounts for authentication/authorization with Terraform custom provider.

Yahoo Japan Corporation. (Go / C++ / Java / Protobuf)

August 2021 - September 2021

- Engaged series of development in ad-platform(design / implementation / release / A/B testing).

- Implementation has made the engagement score twice.

Akatsuki Inc. (Go / Locust / GCP)

July 2021

- Engaged in the development of WebAPI for key rotation of GCP Secret Manager and improvement of existing implementation using quantitative measurement by load test.

- Implementation has reduced the average response time by 26%.

3-shake Inc. (Go / GCP)

March 2021 - July 2021, December 2021 -

- Engaged the development of WebAPI and vulnerable scanners for [Securify](#).

Awards

[2nd Place in PyTorch Responsible AI Development Tools & Libraries on PyTorch Annual Hackathon 2021.](#)

- Engaged the development of a library for testing the ethics of language models with neural adversarial texts.

[Best Award and Happy Hacking Award in Open Hack U 2020 Online Vol.5 as the Team.](#)

- Engaged API design, development and CI design & development.

Skills

★★★★

- Go / Python / GitHub Actions / SQL

★★★

- GCP / C++ / Java / JavaScript

★

- Kubernetes / PHP / Ruby / Rust / Verilog
